

About BFA Systems, Inc.

BFA Systems, Inc., a woman-owned small business established in 2005, is emerging as one of Huntsville, Alabama's leading technology and engineering corporations, providing analytical innovations for warfighter in the air, space, force protection, and missile defense community. BFA Systems consists of a close-knit group of devoted professionals uniquely blended to ensure responsiveness and versatility to meet the demands of our Government customers.

BFA Systems' team of dedicated personnel strives to support customers throughout the systems engineering life cycle from concept definition to production and fielding. BFA Systems provides structuring, organizing, defining, and implementing processes and practices that are recognized as a standard for excellence in local defense and development organizations.

BFA Systems' Mission and Vision

BFA Systems is a growing employee-oriented company recognized by our customers for surpassing set expectations and goals. Our primary focus to develop strong relationships within the government and industry communities allows us to identify and provide cost-effective solutions for technical and operational problems. By facilitating successful system design, fielding and support,

development, and risk management opportunities, BFA Systems strives to emerge as an industry leader. BFA Systems provides superior professional support by developing and maintaining a highly motivated technical team encompassing the depth of talent necessary to exceed the needs and expectations of customers.

BFA Systems Provides

- Ethical and professional, team-oriented work environment
- Open communication and outside-the-box thinking
- Continuous professional development and training for employees
- Careful short and long-term planning with strategic staffing
- Collaborative long-term relationships with customers and corporate partners
- Service to the warfighter, peers, and the local community
- Rapid turnaround solutions to meet customers needs

BFA Systems is committed to providing superior products with an enthusiasm and dedication that few large companies can achieve.
